A Scientific Tailor Coming.  
Anderson & Johnson the well known tailors of Sacramento are too well known to the readers of the Gazette to need any extensive mention in these columns. Their work speaks for itself, and hundreds of customers in Nevada can testify to the uniform excellence of the clothing turned out from their establishment. The principal member of the firm will arrive in Reno on about the 1st instant with a full line of samples for inspection of the latest styles and fabrics of quality. All in need of clothing should reserve their orders at the firm of Anderson & Johnson, guarantee a perfect fit and satisfaction. Wait for Anderson.

reno, June 14, 1888.  
Am willing to trade Rio Rancho lands in Butte county, California, for two or three town lots, or for a house and lot in Reno. It is believed that Rio Rancho property will increase in value 100 per cent within two years. There are no other lands in the world like the Feather river bottom lands, except for oranges, lemons, peaches, apricots and other fruits without exception. This is an excellent opportunity for speculation, or to get a home in one of the best spots in California. Will be in Reno for a few days, and will be pleased to meet all those who care to avail themselves of this opportunity.

myself. C. S. YOUNG.

Give Them a Chance!

That is to say, your lungs. Also by your breathing machinery. Very wonderful machinery it is. Not only the large air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with mucus, when they may be there, your lungs cannot help do their work. And what they do they cannot do well. Can't it be imagined every person's earthly pilgrimage passes through the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. That is to say, to stop breathing.

"But I heard of him, though, up in Canada," and he smiled at his little joke.

"Living in luxury on his stolen gains, I suppose," said the lady bitterly.

"No; he had spent his money and was worn to a shadow by remorse."

"Hadn't you better send somebody to look for the boy who took my money?" suggested the lady, now thoroughly alarmed.

"Not a bit of use, madam," said the notion dealer, tranquilly. "He's skinned him clean out of reach by this time. I had six policemen hunting t'other boy within ten minutes after he left the store, for somehow I had misgivings about him, but they couldn't find hide nor hair of that young rascal. 'Twould be just the same in this case. The only thing that can overtake a boy like that is remorse, and I wouldn't want to bet much on remorse unless I could get big odds."

Fortunately, at this moment, the boy returned with the desired change, and remorse was knocked out of job.

"I think so, too," said the lady tenderly. Then she raised her window and audibly shouted to her boy:

"Johnnie, if you don't come in out of that mud-puddle, I'll break your back!"—Columbus Dispatch.

## CHANGING A BIG BILL.

The Customer on the Anxious Seat a Long Time but Relieved at Last.

"I have nothing but a fifty-dollar bill," said a lady who had been making some purchases at a little notions store on Sixth avenue, New York. "Can you change it?"

The proprietor took the bill, examined it critically, fumbled in his money drawer awhile, and then called his boy from the back of the store:

"Here, Jim, take this fifty-dollar bill and get it changed; and be quick about it."

And the lady did wait, until she became nervous and uneasy at his prolonged absence. Finally she ventured to say, timidly:

"That boy's all right, isn't he? Seems to me he's gone a good while."

"So it seems to me," replied the proprietor, looking up from the newspaper he was reading. "Guess he's all right, though. He's a new boy, you see, only had him a few days, and you can't tell how a boy will turn out until you've tried him."

"Oh, yes, he was well enough recommended, didn't he?" asked the lady, growing faint at the thought that he might abscond with her money.

"Yes, he was well enough recommended. His father and mother both came and gave him the best kind of recommendation, though I forgot just where they said they lived."

"Have you ever ever trusted him before to get a fifty-dollar bill changed?" asked, hesitatingly.

"Not this boy," he replied, "but I had a boy last summer—looked a good deal like this one, come to think, same age, same size, same squint—that I sent to get a fifty-dollar bill changed and do you know, madam, I never seen that boy since they said they lived."

The lady, who had been standing by the counter, felt very weak all of a sudden and sank into a chair. The proprietor, absorbed in this bitter reminiscence, did not notice her agitation and continued:

"But I heard of him, though, up in Canada," and he smiled at his little joke.

"Living in luxury on his stolen gains, I suppose," said the lady bitterly.

"No; he had spent his money and was worn to a shadow by remorse."

THURSDAY JUNE 14, 1888

THE Nevada Tribune of yesterday says: "As soon as the decision of the Chicago Convention is made known will the campaign of 1888 be opened, and it will be one of the most interesting the country has known for many years. The people will do the fighting; the mechanic, the farmer, the wool grower and the laboring man will realize that it is for the lives and prosperity of themselves and families they have to battle, and in order to succeed they will find it imperative to support the Republican ticket no matter who may head it. The Democracy will bring every possible means into the fight, for to that party defeat means death without the least possibility of resuscitation, so it behoves every lover of American institutions, every foreign born citizen to constitute himself a committee of one, and induce all with whom he may be acquainted or has control over to ignore the party that, by its platform has sounded the death knell to American industry, and vote for the grand Republican party, that since its organization has been the friend of the workman and certainly the savior of the American Union."

Democracy to-day does not mean the same as it did in Jackson's time, but on the contrary signifies death to the laborer's prosperity and the aggrandizement of European merchants and money kings; in other words it does not carry out what the word signifies, "the will of the people." The party has had over three years' trial, and if there is a sensible Democrat in the United States who can show an iota of good which it has accomplished, let it at once be made public. The fight will be a strong and bitter one, but the glorious old party that still does battle under the stars and stripes will surely come out victorious.

In to-morrow's issue of the GAZETTE will appear an able and important opinion rendered by Judge Bigelow in the case of State of Nevada against the Central Pacific Railroad Company. Assessor Stoddard placed on the tax-roll last year 140,550 acres of surveyed land, lying in the odd sections, for which the company had no patents, and the company refused to pay the tax thereon. Suit was brought to collect the tax. An answer was filed and demurred to. The opinion is upon the questions arising on this state of the pleadings.

It will suffice to say that all the counties of this State through which the Central Pacific Railroad passes are specially interested in the result of a final issue in the litigation between Washoe county and the company.

This county was the only one in the State that had the courage to list for taxation the unpatented surveyed lands, as is authorized by the act of Congress of July 12th, 1886, hence has the pending fight for the rights, not only of the county, but the State. In all probability the State officials will see that the odd sections included in the railroad grant will bear their share of the burden of taxation from this on, should the County Assessors be disposed to let this source of revenue go exempt.

The San Francisco Chronicle says: It will be interesting to see how the constituents of Congressman Biggs and Thompson will receive their declarations in favor of reducing the tariff on some of the chief California products and of removing it altogether from others, of which wool and lumber are products in which most of their constituents have a vital interest. No doubt the able Democratic editors of the First and Second Congressional Districts will attempt to show that these men are helping California, but the lumbermen and wool growers will not be cheated by any sophistry. The argument directed to the pocket is one of the strongest arguments in the world, and it is on the power of this argument that Republican success this fall depends.

The outlook for the National Educational Association, to be held in San Francisco, is most flattering. It is estimated that between ten and fifteen thousand visitors from the East will be in attendance. The army of educators will do much toward disseminating knowledge of the coast throughout the whole country. The fruits of their observations will be scattered broadcast. The information gained will be made the property of the hundreds of thousands of children in cities, town and country, and thus the "young idea" will be imbued with what the coast is and its possibilities.

Re-elected.

The Virginia reporter made a funny mistake in reporting Dash Gregory, of Reno, elected Grand Treasurer of the Grand Chapter R. A. M. of Nevada, at its meeting on Tuesday. G. A. Bragg, of Reno, was elected to the position.

## OVER THE WIRES.

Blaine Declines to be a Candidate.

He will not Accept the Nomination if Tendered.

General Sheridan Improving—California Fruits in the East—Coast News—Etc.

## BLAINE DECLINES.

The California Delegation Held for Him.

CHICAGO, June 14.—A Pittsburgh dispatch says that Chairman Jones of the Republican National Committee, has in his possession a third letter from Blaine, which he has just received from Blaine in Scotland, and which is to be read upon the assembling of the National Convention next Tuesday. In it Blaine states most emphatically that he will not permit the use of his name in connection with the nomination, and he would not accept though it were tendered him unanimously. Jones arrived here this morning, but would neither deny nor corroborate the story.

WASHTON, Wyo., June 14.—The California delegation to the Republican Convention held a meeting here yesterday and agreed to act as a unit upon Blaine as first choice, and to cast the first vote for him, unless they decide upon a more available man after their arrival at Chicago.

Sherman's Chances Improving.

CHICAGO, June 14.—The News-Cincinnati special says: An alternate delegate-at-large from Ohio to the Chicago Convention was asked who, in his opinion, would be chosen as the Republican candidate for the presidency, and he replied:

"I am in favor of Sherman. I hope to see him elected on the first ballot. He will show his full strength, which I think will run over three hundred thousand. On the second ballot he will depend his fate. If he gains fifteen or twenty votes then, the third ballot will see him nominated, but should the second ballot show a decrease, then good-by, as nothing will prevent a break in the Ohio delegation.

"Whether they will go for Judge Gresham, J. B. Foraker or some other person will be determined by events, though it is my opinion that it will not, under any consideration, be a candidate unless it is with Sherman's approval. The intention is, should Sherman be nominated and elected he will resign as United States Senator and use his influence with the Legislature to elect Governor Foraker his successor.

"It is a fact that the Governor of Ohio is leaning into the campaign than any other person so far named, and he is life and vigor itself."

The Maine Convention.

PORTLAND, Me., June 13.—Hon. E. C. Burleigh received the nomination for Governor in the Republican State Convention yesterday afternoon on the first ballot, receiving 775 votes.

The proceedings showed very plainly that the Republicans of the State are heartily tired of the Manley rule.

When he stepped forward to call the convention to order, not a solitary cheer greeted him, and even his strong protection language in his speech failed to open a mouth. The convention completely shattered the Manley machine.

The Alger Boom in the South.

COLUMBIA, S. C., June 14.—It is evident that Governor Alger or his friends are making a strong effort to capture the delegation from this State. D. A. Starkier, a colored lawyer from Detroit, formerly of this State, addressed the Republican Convention in favor of Alger. Alger photographs are being distributed among the negroes. The delegates will not commit themselves. Sherman is the favorite.

Charges of Railroad Discrimination.

NEW YORK, June 14.—The Inter-State Commerce Commission has been investigating the charges of the New York Produce Exchange against many railroads which are summed up in allegations that the railroads have allowed too large a number of persons special rates, debats and drawbacks. Tariffs rates from the west to European ports are lower than rates from the east due to this, city, Time.

Shippers can be sent from New York to Europe for three cents less per 100 pounds than to New York itself.

The rates in some instances differ by as much as 50 per cent. The freights are largely western grain.

Kansas City Races.

KANSAS CITY, June 14.—The weather is fine and the track fast. The first race yesterday was three-fourths of a mile, for maidens. Report won, Lizzie B. Second, Bonfire third, Time, 1:14.

The second race was one mile. Sour Mash won, Foxtrot second, Letia May third. Time, 1:34.

The third race was five-eighths of a mile. The Lioness won, Laura Stone second. Time, 1:30.

The fourth race was three-quarter mile heats. The first heat was won by Only Dare, Coshier second, Free-man third. Time, 1:17.

California Fruits in the East.

CHICAGO, June 14.—The eastern manager of the California Fruit Union states that advances from Boston and New York last night announce that the fruit auction sales of California green fruits there yesterday were a great success. The New York car realized about \$2,100, and the Boston car about \$2,500. The contents of both cars were auctioned off within a quarter of an hour from the first sale. The Chicago trade is anxiously awaiting the beginning of auction sales here, and a great success is anticipated.

A Locust Plague.

CHICAGO, June 14.—Dispatches from points in Iowa and Illinois state that millions of locusts are making their appearance. They are doing little damage yet beyond killing of young and tender trees. Opinions differ as to whether they are the 17 year variety or not.

## SHERIDAN IMPROVING.

He is Resting So Well That the Doctors Do Not Issue Bulletins.

WASHINGTON, June 14.—General Sheridan's condition is so much improved that his physicians have decided to omit the regular afternoon bulletins.

The General has been sleeping nearly all the morning and has taken much nourishment—beef tea and milk with apparent relish.

Up to Tuesday his stomach refused to digest the beef tea, but now he is able to retain it without trouble.

This is four days since the last occurrence of the heart failures and his absence is looked upon as being very encouraging.

Story of the Donner Party Recalled.

WASHINGTON, June 14.—Riley Monterey, and not Governor Riley, who was connected with the early history of California, is the name of the man who asks through Senator Stewart to be reimbursed for supplies furnished and money lost while assisting in the rescue of the Donner party.

He claims that he was at Sutter's Fort then, was young and did not apply for recompence; but now that he is old and poor he feels the necessity of assistance.

Millers in Convention.

BUFFALO, June 14.—The second day of the Millers' National Convention opened with a large attendance. An effort was made at the morning session to form a flour trust, but no definite method, and the one most in use by experienced railroad men, is to count the number of rail joints the train passes over in 20 seconds. The rails in nearly all cases are 30 feet in length, and the number passed over in 20 seconds is the speed per hour a train is running. For instance, if a passenger sitting in a sleeper can count 30 clicks of the wheel on a rail joint in 20 seconds the train is running at the speed of 30 miles an hour.

Nineteen Persons Poisoned.

MINNEAPOLIS, June 14.—Nineteen persons were poisoned at Kasota, Minnesota, by eating cheese manufactured in Wisconsin. Many of the victims became insensible after suffering spasms, but with good treatment will recover.

LOBSTERS COMING.

A Carload to Start Westward This Month.

SAN FRANCISCO, June 14.—A few days ago Congressman Morrow wired J. O. Redding, the representative of the United States Fish Commission on this coast, that the long-expected carload of lobsters for breeding purposes in coast waters will start westward sometime during the present month.

The assurance came to Mr. Morrow from Colonel McDonald, the Government Fish Commissioner. The car containing these marine immigrants will be in charge of deputies of the Government Commission. It will come west direct on passenger time.

The transportation expenses on the other side of the Missouri will be paid by private subscriptions, obtained here. Great pains will be taken to insure a safe and rapid voyage.

Creditable.

The closing exercises of the South Side and First and Second Primary schools held at the Baptist Church on the afternoon of yesterday, a programme of which appeared in the GAZETTE, were most creditable to the little ones and the teachers under whose supervision they have been during the past year.

Thousands of Dollars.

Are spent every year by the people of this State for worthless medicines for the cure of throat and lung diseases, when we know that if we would only invest \$1 in Santa Abe, the new Call for Discovery for consumption and kindred complaints, they would in this pleasant remedy find relief. It is recommended by ministers, physicians and public speakers of the Golden State. Sold and guaranteed by Osborn & Shoemaker at \$1 per bottle.

Coming West

At a recent meeting of the stockholders of the Utah Central railroad in Salt Lake it was decided to amend the articles of incorporation to allow a further extension of the road to Nevada, a distance southwest of 85 miles from the present terminus at Milford. Survey of the route have already been made but the officials do not deem it probable that much active work will be done before next spring, when it is believed that operations will commence in earnest to connect with the Southern Pacific.

Horse Returned.

B. F. Leete's horse Alex Barnes, that was stolen June 12th, came home this morning, bringing with him a black horse about 16 hands high, seven years old and white hind foot and branded a heart. The horse is in Leete's field. The owner will please call and get him.

## RAILROAD SPEED.

How to get an Idea of the Time a Train is Making.

An old railroad man tells the Kansas City Times that there is not one person in a hundred of the millions who travel on railroads in the course of a year who has any idea of the speed of a train. A large per cent of even the regular train men of the country cannot tell with any degree of accuracy how fast a train is running.

Frequently engineers are dispatched on a train over a line of railroad with instructions to run at a speed of a certain number of miles an hour. The engines do not carry a speed indicator, but have learned by various methods to gauge their engines so as to make only the slightest variation from the order.

The majority of engineers use their driving-wheel as a gauge. They know its circumference, and by counting its revolutions within a certain time can tell very accurately the speed at which they are running.

Another method is to time the run between mile posts, and still another is to make calculations from the number of telegraph poles passed in a certain time. These poles in a level country and where four or five wires are used, are spaced so that they are thirty to the mile. If only a single wire is used they are spaced from 25 to 28 to the mile. The most accurate method, and the one most in use by experienced railroad men, is to count the number of rail joints the train passes over in 20 seconds.

The rails in nearly all cases are 30 feet in length, and the number passed over in 20 seconds is the speed per hour a train is running.

(Deacon) Gale, Carson; J. O. Gregory, J. H. Whited, O. E. Starr, T. T. Moran, J. G. Driscoll, F. J. Winn, Wadsworth; H. Herrington, C. Anderson, Sacramento; R. P. Keating, B. S. Boutwell, Virginia City; J. Griffin, Humboldt; F. A. Berry, Washington, D. C.

### JOTTINGS.

Second performance of "Ramon" in McKissick's Opera House to-night.

Silk, velvet and plush scraps, stamped and plain for crazy patch work at Miss Gibbs'.

Every business man should buy a ticket for the firemen's ball, July 4th. Help the good cause.

C. A. Thurston has the finest line of lady's lace paper in boxes, with envelopes to match, to be had anywhere in Reno.

If you want pioneer lead, the best quality of varnish, a good paint brush, or a tooth pick, go to Brookins.

W. M. Havenor keeps a line of goods that does not spoil, but satisfies the appetites of those who patronize him.

Whether midwinter or midsummer, Aitken is ready to supply his customers with wood or ice—the latter by the pound, week or month.

If you are hungry, have only two bits and want to get the worth of your money, patronize the Pioneer Hotel, of which M. Cooper is the proprietor.

Charity garments are usually cut on the bias. Not so with J. J. Becker's hot lunches, each of which is accompanied with a glass of foaming beer.

Family bibles, prayer books, poems of noted authors, autograph albums are specialties of C. A. Thurston, and are sold at prices to suit the purchaser.

If you want a medicinal toddy, which will not make your headache, buy chemically pure whisky. Remember the brand Thistle Dew. It is sold by Pluniger.

E. W. Crutcher has for sale ten or eleven head of fine Lake-way cattle. They are all well fed and in good condition. The price per head is \$10.00. Cattle are to be sold at auction, and the bidding is to be done at the fair price, no bid being higher than the last bid. The bidding is to be done at the fair price, no bid being higher than the last bid.

Marshall's Monument. J. Marion Wells, the sculptor who has a contract for erecting a monument to the late J. W. Marshall, who is accredited as the discoverer of gold in California, has the clay model at his studio in San Francisco, subject to the approval of the Commissioners, who will meet on the 23rd inst. The statue is ten feet in height, and will stand on top of a granite movement nearly thirty feet in height.

### PERSONAL.

United States Marshal T. E. Kelley was in town this morning.

General Keating came down from Virginia to meet his family last night.

R. H. Lindsey and Judge S. D. King went to Genoa to-day on professional business.

Mrs. Senator Kaiser of Churchill county attended the opening of the McKissick Opera House.

Mrs. J. Anderson & Johnson of Sacramento is in Reno, representing that enterprising firm of tailors.

Rael Waggoner, who resided for many years in Reno, has accepted a position with Mr. Gilman, a Marysville merchant.

The many friends of Mrs. Alt congratulated her on her complete recovery from her illness, a result of physical exertion.

"Na'hom's" Letter.

The Truckee Republican takes exceptions to the pen picture drawn of that place by a correspondent and published in one of last week's issue of the GAZETTE. It says:

"Last week a correspondent of the Reno GAZETTE paid Truckee a visit and wrote a descriptive article of the town to that paper, signing himself 'Na'hom.' The advertisement which he gives Truckee is not a very flattering one and lest readers abroad should conceive the notion that the town is as bad as he paints the picture, we wish to state that it is greatly overdrawn.

The moral element in Truckee is as strong as in any other and this is no 'Va' Mecca.'

What surprises us is that 'Na'hom' should write such a thing about the very places in which he has the warmest friends, and who treated him with kindest consideration. The only explanation is that the kindness was extended too liberally.

250 BEAUTIFUL LOTS FOR SALE!

From \$200 to \$600!

A Rare Chance for Investment and a Home.

THE MOST LOVELY POSITION OF RENO.

FACING THE TRUCKEE—THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY—SPLENDID SEWERAGE—HEALTHFUL LOCATION AND SAFE FROM FIRE.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buying elsewhere. Parties will do well to look at these lots.

## Constipation

Causes, directly or indirectly, fully one-half the sufferings which afflict mankind. It is usually induced by inactivity of the liver, and may be cured by the use of Ayer's Pills. C. A. Schomerus, Great Bend, Kansas, writes: "I have used Ayer's Pills for Constiveness, with the most beneficial results." J. Windham, Newark, N. J., writes: "Ayer's Pills cured me of chronic Constipation." Martin Koch, Huntingdon, Ind., writes: "Last year I suffered much from Biliousness."

## And Headache

After using one box of Ayer's Pills I was quite well." C. F. Hopkins, Nevada City, Mo., writes: "I have used Ayer's Pills, and think they are the best in the world. They have cured me of Sick Headache and Neuralgia." W. L. Page, Richmond, Va., writes: "I have been a severe sufferer from Headache. Ayer's Pills afford me speedy relief." A. J. Forster, Dauphin St., Mobile, Ala., writes: "For a number of years I have been troubled with Constipation and Headaches. After trying a number of so-called Liver Invigorators, without benefit, I was at last

## Cured by Using

Ayer's Pills." Rev. Francis B. Harlowe, Atlanta, Ga., writes: "For years I was subject to Constipation, from which I suffered increasing inconvenience, in spite of the use of medicines of various kinds. Some months ago, I began taking Ayer's Pills. They have entirely corrected the constive habit, and have vastly improved my general health." Hermann Bringhoff, jewelry engraver, Newark, N. J., writes: "Constiveness, induced by my sedentary habits of life, at one time became chronic and exceedingly troublesome. Ayer's Pills afforded me speedy relief, and their occasional use has since kept me all right." Ed. O. Easterly, Rockford, Ill., writes that he has been cured of chronic Constipation by the use of
